SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general	: Never give anything by mouth to an unconscious person. If you feel unwell, seek
	medical advice (show the label where possible).
First-aid measures after inhalation	: When symptoms occur: go into open air and ventilate suspected area. Obtain
	medical attention if breathing difficulty persists.

Safety Data Sheet According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

According to Regulation (EC) No. 1907/2006 (REACH)	vith its amendment Regulation (EU) 2015/830
First-aid measures after skin contact	: Remove contaminated clothing. Drench affected area with water for at least 15
	minutes. Obtain medical attention if irritation develops or persists.
First-aid measures after eye contact	: Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing. Obtain medical attention.
First-aid measures after ingestion	: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.
4.2. Most important symptoms an	d effects, both acute and delayed
Symptoms/injuries	: Not expected to present a significant hazard under anticipated conditions of
	normal use.
Symptoms/injuries after inhalation	: Prolonged exposure may cause irritation.
Symptoms/injuries after skin contact	: Prolonged exposure may cause skin irritation.
Symptoms/injuries after eye contact	: May cause slight irritation to eyes.
Symptoms/injuries after ingestion	: Ingestion may cause adverse effects.
Chronic symptoms	: None expected under normal conditions of use.
4.3. Indication of any immediate r	nedical attention and special treatment needed
If exposed or concerned, get medical advie	ce and attention. If medical advice is needed, have product container or label at hand.
SECTION 5: Firefighting measure	ures
5.1. Extinguishing media	
Suitable extinguishing media	: Water spray, dry chemical, foam, carbon dioxide.
Unsuitable extinguishing media	: Do not use a heavy water stream. Use of heavy stream of water may spread fire.
5.2. Special hazards arising from t	
Fire hazard	: Not flammable.
Explosion hazard	: Product is not explosive.
Reactivity	: Hazardous reactions will not occur under normal conditions.
5.3. Advice for firefighters	
Precautionary measures fire	: Exercise caution when fighting any chemical fire.
Firefighting instructions	: Use water spray or fog for cooling exposed containers.
Protection during firefighting	: Do not enter fire area without proper protective equipment, including respiratory
	protection.
SECTION 6. Accidental release	
SECTION 6: Accidental release	e measures
6.1. Personal precautions, protect	ive equipment and emergency procedures
6.1. Personal precautions, protect General measures	e measures
6.1. Personal precautions, protect General measures6.1.1. For non-emergency personnel	 measures ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray).
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment 	 Measures ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray). Use appropriate personal protection equipment (PPE).
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 	 measures ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray).
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 6.1.2. For emergency responders 	 Measures ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray). Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel.
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 6.1.2. For emergency responders Protective equipment 	 Measures ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray). Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel. Equip cleanup crew with proper protection.
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 6.1.2. For emergency responders 	 Measures ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray). Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel.
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 6.1.2. For emergency responders Protective equipment 	 ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray). Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel. Equip cleanup crew with proper protection. Ventilate area. Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area,
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 6.1.2. For emergency responders Protective equipment Emergency procedures 	 Measures ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray). Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel. Equip cleanup crew with proper protection. Ventilate area. Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit.
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 6.1.2. For emergency responders Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters 	 ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapour, mist, spray). Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel. Equip cleanup crew with proper protection. Ventilate area. Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit.
 6.1. Personal precautions, protect General measures 6.1.1. For non-emergency personnel Protective equipment Emergency procedures 6.1.2. For emergency responders Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters 	 ive equipment and emergency procedures Avoid prolonged contact with eyes, skin and clothing. Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

7.2. Conditions for safe stora	ge, including any incompatibilities
Technical measures	: Comply with applicable regulations.
Storage conditions	 Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.
Incompatible products	: Strong acids, strong bases, strong oxidizers.
Incompatible materials	: Sources of ignition. Direct sunlight.
7.3 Specific end use(s)	

Specific end use(s)

CE-IVD FOR U.S. EXPORT ONLY

SECTION 8: Exposure controls/personal protection

8.1. **Control parameters**

No additional information available

8.2. **Exposure controls**

Appropriate engineering controls

Personal protective equipment

Materials for protective clothing

Skin and body protection

Respiratory protection

- : Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed.
- : Gloves. Protective clothing. Protective goggles.

: Chemically resistant materials and fabrics.

When using, do not eat, drink or smoke.

- : Wear protective gloves.
- : Chemical safety goggles.
- : Wear suitable protective clothing.
- : If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Other information

Hand protection

Eye protection

SECTION 9: Physical and chemical properties

:

9.1. Information on basic physical and chemical properties			
Physical state	: Liquid		
Colour	: No data available		
Odour	: No data available		
Odour threshold	: No data available		
рН	: No data available		
Evaporation rate	: No data available		
Melting point	: No data available		
Freezing point	: No data available		
Boiling point	: No data available		
Flash point	: No data available		
Auto-ignition temperature	: No data available		
Decomposition temperature	: No data available		
Flammability (solid, gas)	: No data available		
Vapour pressure	: No data available		
Relative vapour density at 20 °C	: No data available		
Solubility	: No data available		
Partition coefficient: n-octanol/water	: No data available		
Viscosity	: No data available		
Explosive properties	: No data available		
Oxidising properties	: No data available		
Explosive limits	: No data available		

Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

Hazardous reactions will not occur under normal conditions.

10.2. Chemical stability

Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

10.4. Conditions to avoid

Direct sunlight. Incompatible materials.

10.5. Incompatible materials

Strong acids, strong bases, strong oxidizers.

10.6. Hazardous decomposition products

None known.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity

Ethylenediaminetetraacetic acid (60-00-4)

Ethylenediaminetetraacetic acid (60-00-4)				
LD50 oral rat	> 2000 mg/kg			
LD50 oral	2580 mg/kg			
Skin corrosion/irritation	: Not classified			
Serious eye damage/irritation	: Not classified			
Respiratory or skin sensitisation	: Not classified			
Germ cell mutagenicity	: Not classified			
Carcinogenicity	: Not classified			
Reproductive toxicity	: Not classified			
Specific target organ toxicity (single exposure	e) : Not classified			
Specific target organ toxicity (repeated expos	sure) : Not classified			
Aspiration hazard	: Not classified			
Symptoms/Injuries After Inhalation	: Prolonged exposure may cause irritation.			
Symptoms/Injuries After Skin Contact	: Prolonged exposure may cause skin irritation.			
Symptoms/Injuries After Eye Contact	: May cause slight irritation to eyes.			
Symptoms/Injuries After Ingestion	: Ingestion may cause adverse effects.			
Chronic Symptoms	: None expected under normal conditions of use.			
Potential adverse human health effects and symptoms	: Based on available data, the classification criteria are not met.			

SECTION 12: Ecological information

12.1. Toxicity Ecology - general

: Not classified.

: Not classified

Ethylenediaminetetraacetic acid (60-00-4)		
LC50 fish 1	34 - 62 mg/l (Exposure time: 96 h - Species: Lepomis macrochirus [static])	
EC50 Daphnia 1	113 mg/l (Exposure time: 48 h - Species: Daphnia magna [Static])	
LC50 fish 2	44,2 - 76,5 mg/l (Exposure time: 96 h - Species: Pimephales promelas [static])	
NOEC chronic fish	>= 25,7 mg/l (Duration: 35 d - Species: Brachydanio rerio [Flow-through])	
NOEC chronic crustacea	25 mg/l (Duration: 21 d - Species: Daphnia magna [Semi-static])	
12.2. Persistence and degradability		
Read 1 Sequencing Primers		
Persistence and degradability	Not established.	

Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

12.3. Bioaccumulative potential Read 1 Sequencing Primers Bioaccumulative potential Not established. 12.4. Mobility in soil No additional information available 12.5. Results of PBT and vPvB assessment No additional information available 12.6. Other adverse effects Other information : Avoid release to the environment.

: Avoid release to the enviro

SECTION 13: Disposal considerations 13.1. Waste treatment methods

Waste disposal recommendations

Dispose of contents/container in accordance with local, regional, national, territorial, provincial, and international regulations.
Avoid release to the environment.

Ecology - waste materials

SECTION 14: Transport information
