

Armored RNA Quant[®] SARS-CoV-2 SV1

In response to COVID-19, Asuragen has developed molecular diagnostic controls for multiple regions of the SARS-CoV-2 genome as well as conserved mutations in the spike protein prevalent in the B.1.1.7, B.1.35, P.1 and the Delta variant. Armored RNA Quant controls allow for stable, reliable, and safe ways to rapidly test for the presence of Coronavirus and its variants.

SARS CoV-2 Spike Variant
